WEB DESIGN BOOK OF TRENDS

2013-2014

WEB DESIGN BOOK OF TRENDS

2013-2014

Marcin Treder, Robert Warych *and* Sebastian Witman

Preface

Design is the mirror of culture. Changes in society, technology and art are always reflected in the current state of design. Designers are stretching the limits of matter and self expression in the constant endeavor to build something meaningful. This effort cannot be separated from the world - the ultimate source of design inspiration.

Web Design is by far the most dynamic member of the design family. Trends come and go quickly. Each year, though, seems to be more mature and the progress is easily visible.

In recent years we went through a massive interest in skeuomorphism, a robust usage of large typography, vintage websites, hand written fonts, wood patterns, big headers, enormous footers, etc.

Today, design is different. Users are finally in the center of the process and

you can literally feel this while browsing through the web. Content never mattered more. The adaptation of websites to different screen sizes has become a standard. The visual side of web design leans towards simplicity and balance. Web Design has never been more mature and sane.

And yes, though the madness of flash has died, we can still witness a lot of craziness. Designers are stretching the limits of technology with Web GL, very popular video backgrounds and twisted variations of web navigation. Without experiments, though, there would be no progress.

Progress couldn't exist without constant learning from each other as well. That's why we've decided to analyze thousands of websites to look for the trends that are repeated by the best designers. We've found very popular patterns in 2013 and emerging trends that most probably will be very popular in 2014.

We've singled out 11 trends and chosen 15 amazing examples for each one. Trend no. 12 was forced on designers by the EU - the infamous "cookie warnings" that flooded the web come with 4 examples (more would be simply boring).

We're hoping that this collection will fill you with inspiration and reflection on the direction web design is heading in.

Have fun!

1. THE ERA OF CONTENT

“Content is King” said Bill Gates back in 1996 and we waited quite a long time to fully feel the wisdom of these words in web design.

Today, finally, web design has become content-centric. Great text, amazing photographs and videos are the center of the modern website. The content rises above the layout and ornaments, or in other words - **design creates the context for content.**

Visitors don't come to our website to admire the layout and overall design. Visitors come to a website to achieve their goals. In most cases content is the road to the goal and it has to be clear.

The layout and design of the website attract visitors but it works only when you have relevant, useful and catchy content.

The 15 websites that we've chosen represent magnificent abilities to present content in an engaging way. Enjoy!

Dear users says the crew is undoubtedly impressed by it. One that would make another culture and make the beginning of a lasting relationship between Nike and the then leading sports culture brand.

To follow, Nike's answer is to create a **GOALS** of its special products and help Hyperdunk that completes the end of the rule. Originally existing as a special that you're all members of the rule, "Bring Back 2003" has since become a great event every in the circles of today here and now.

Hyperdunk is known for its military inspired conditions of class members - and the second installment of the "Bring Back 2003" is a prime example of this approach. Presented by the service forces, the event will be held at the Nike Store in London on November 1st.

When the Nike Store in London is open to all, after the Nike Hyperdunk Launch Event, "Bring Back 2003" will be held in the Nike London, Oxford Street, and Pepperpot locations. The Nike Hyperdunk continues the global culture of the project with its cutting-edge innovation that has

MEET COLLEEN MEIER... THE LADY BEHIND YOGA FLEX

Colleen is an ex-ballerina dancer from Colorado USA who now resides in London.

Starting the Yoga Flex sessions at 1948 in April, Colleen's a full-time Sports Therapist based in London. She has been working in the field of sports therapy for over twelve years and used her skills to help all those that want to get back to their most flexible and healthy self. She has also been teaching yoga classes in London and why everyone should come down and give it a go.

Tell us about the Yoga Flex sessions?

I'm a former dancer myself, which kinda caused me to start to do Sports Therapy as I didn't want to do it all over again. But I used to be a dancer and we found that it is a very good way to keep your body strong and healthy.

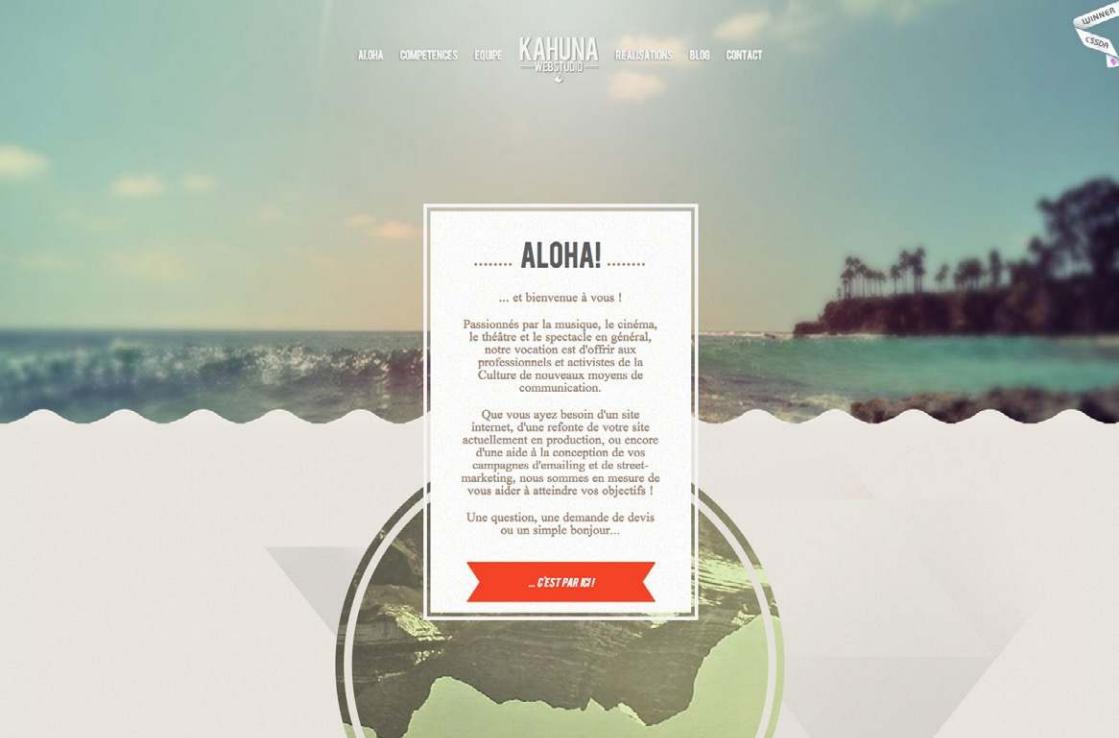

How has the session been going?

We're in the fourth session this week and it's going really well. So many new faces have joined us and we've had some great feedback. We've had people from all walks of life, from new mums to single ladies and have been put off by more traditional yoga centres and expensive lessons.

How long have you been producing?

I've been performing for about 10 years now. I started with Colleen, who is actually local to her.

I'm not your typical yoga teacher, I'm not a Yogi. I just know how to teach it.

..... ALOHA!

... et bienvenue à vous !

Passionnés par la musique, le cinéma, le théâtre et le spectacle en général, notre vocation est d'offrir aux professionnels et activistes de la Culture de nouveaux moyens de communication.

Que vous ayez besoin d'un site internet, d'une refonte de votre site actuellement en production, ou encore d'une aide à la conception de vos campagnes d'emailing et de street-marketing, nous sommes en mesure de

Une question, une demande de devis

TED Ed, Lessons Worth Sharing

Coming Soon! TED-Ed Clubs...

Teachers and students, TED-Ed is currently seeking your interest in helping build our new, annual, teacher program called TED-Ed Clubs!

TED-Ed Clubs introduce students to the joy of learning by helping them learn about subjects in reading, writing, science, history and present their big ideas in a fun, safe environment.

TED-Ed Clubs are designed to help students learn through fun, dynamic activities, including reading them in TED-Ed events and the annual TED-Ed Clubs conference.

What are the driving forces behind TED-Ed Clubs?

The driving forces behind TED-Ed Clubs are:

- The desire to introduce students to the student potential.
- TED-Ed's commitment to providing a free, accessible platform through which students can learn and succeed.
- The desire to support teachers and students in making education more meaningful, ever-evolving, and fun.

Who will be able to participate in the TED-Ed Clubs program?

The TED-Ed Clubs program is open to anyone who wants to help their students get out there, communicate, and learn.

Additional questions?

Send us an email or check out the FAQ.

Next Step?

Fill out your interest below! We'll send you an email with more information on how to get involved.

Yes, I'm interested...

RUCHOME OBRA

HIGH SIERRA

He acknowledged as one of the greatest pictures that paved the way for the style and moral implications of the next, *High Noon* (1942) in the same year. *Destry Rides Again*, a crooked spry from prison to prevent a crooked town. Sedded with irreverent songwriting (play) by character actor Alan Ladd and Arthur Housman. A timely warning for his role in the original *Death of a Salesman* and a one-act play he had for his last (logos which would later become a novel). Early, early instances of a noirish, nihilistic, planes to go straight ahead and do what you have to do, like the last ride, like the last laugh.

Guild Wars 2 welcomes back Super Adventure Box retro dungeon

By [Alexa Ray Corriat](#) at 10:00am

Starting Sept. 3, Guild Wars 2 players will be able to dive back into the retro-style B&B Super Adventure Box dungeon — which was previously added to the game for a limited time in April — developer ArenaNet announced today. Super Adventure Box — with its pixelated 3D graphics and retro old-school background music — has been expanded upon for its second release, and will include new zones, modes and rewards for players to earn. The dungeon will go live with Guild Wars 2's next update. New events include a showdown with a Storm Wizard after a challenging journey through the World 2 zone's

LOST PLANET 3

LOST PLANET 3 REVIEW: SNOW DAY

By [Alexa Ray Corriat](#) on August 27, 2013 at 10:00am

Lost Planet 3 is the latest Capcom property the Japanese publisher has farmed out to a western development studio, following the lead of Droid Racer and Bionic Commando. While the original Lost Planet marked Capcom's entrance into "hardcore" when it came out six years ago, 2010's follow-up failed to keep up the writer momentum. With that, Capcom handed the keys to the franchise over to a team of Americans, and the results are... interesting.

Sparta Unlimited's valuation to Lost Planet's sophomore slump to take the series back before the original, and to completely rebuilt the game's basic structure from linear third-person shooting to a more open-world approach. It's a bold move, and one that's paid off, as the game's now one of the most fun titles in the series.

[Read more](#)

LOST PLANET 3 IS PULLED BETWEEN COMPELLING STRUCTURE AND LESS COMPETENT GUNPLAY

The difference between the medium and the world that Sparta built in Lost Planet 3 and the basic, unpolished baseline they chose to maintain. Despite Unleashed has made a game that's both more and less than the sum of its parts — but it's not enough ambitious to see what Lost Planet 3 could have been. It would have been a better game if it had been able to make the most of what it had, and I wonder if I would have wondered where the "Sparta have home" would have gone.

Lost Planet 3 was reviewed using a retail Xbox 360 copy provided by Capcom. You can find additional information about Polygon's ethics policy [here](#).

True becomes Pet Drugs Online's trusty companion

It's been a busy few months at True. So busy, in fact, that we've had time to share an exciting bit of new business – Pet Drugs Online.

Established and run by qualified vets, Pet Drugs Online supply prescription and nonprescription medications, accessories and food products directly to pet owners, providing a more efficient alternative to buying from traditional vet practices.

True will be handling all digital marketing activities, including paid search and affiliate marketing.

Tim Jones, True's Director, explains: "We're delighted to be working with Pet Drugs Online, with its focus on providing quality products and services to pet owners. We're excited to be working with them to help them grow their business and increase sales."

For a retailer that's growing significantly, Pet Drugs Online have a strong proposition and we're excited to partner with them and approach its successful growth with enthusiasm as Pet Drugs Online continues the journey."

This is true to reading reviews. In the past three years our clients have given us an average 97% and

true.

Everything you want from a full service digital marketing agency and more: devilishly clever strategy, breathtaking creative, expert insight - and great people to work with. **Believe it, it's True.**

- The "Support" section, which includes a photo of a painting and a link to "Fellowships & Grants".

2. STORYTELLING

Storytelling is a powerful method of communication. In *The Psychological Power of Storytelling*, author Pamela Brown Rutledge says “when organizations, causes, brands or individuals identify and develop a core story, they create and display authentic meaning and purpose that others can believe, participate in, and share.” Storytelling is the road to efficient web communication and in 2013 designers seem to have finally grasped this concept.

The fact that storytelling is used not only by major brands to tell their stories, but also by non-profits to create an emotional response to important problems is all worth respect. After all persuasion is a big part of this design idea and nobody said it cannot be used for a good cause.

In 2013 designers mastered storytelling and I’m pretty sure it will be a major trend in 2014. This is the kind of fashion we’d love to be ruled by, isn’t it?

Brace yourself. You’ll be amazed by our 15 best storytelling websites on the next pages.

ONE CAMP. HALF A MILLION REFUGEES. COUNTLESS STORIES.

The Dadaab refugee camp is the largest in the world. The people that live here have remarkable stories to tell — they just need a place to share them.

Dadaab is the world's largest refugee settlement. Located in northern Kenya, it is home to over 500,000 refugees. As the camp grows, so does its home to roughly half a million people. By now, it's become a home away from home to thousands, but life does not stop here. Love, marriage, children, work, innovation, and more continue to flourish in this community of over 500,000 Dadaab residents — children of children who were born to the camp.

Following a severe drought and famine in the region in 2011, nearly 100,000 new refugees flooded into the camp. Recently, the region has experienced a period of relative stability, but the lack of work and resources still remains. Despite the challenges, the Dadaab story continues to evolve.

OFFER SHIPPING ESTIMATES IN THE BLINK OF AN EYE

During the checkout process, let your customers have a real estimate of shipping cost. Snipcart is integrated with the major shipping gateways (FedEx, UPS, etc) to give a real estimate of the shipping cost for each and every product you're selling.

IF YOU SELL, WE GET PAID. IF YOU DON'T, WE DON'T

We believe in honest pricing without hidden fees. If you sell, we're paid. If not? Well, how nice is it that major life charges a flat percentage based on the sales you're making and money is deposited straight to your account, without any middle man?

We currently support Stripe and PayPal as payment gateways. Other gateways are coming and will be available soon. If you're interested in adding another gateway, just drop us a line and tell us about it!

We also offer special pricing for high volume users. Drop us a line [geek@geekinpc.com](#).

BLACK AMERICAN HISTORY

AN INVENTOR, EX-SLAVE, AND EX-RAILROAD WORKER, THIS INNOVATOR PATENTED A FEW YEARS AGO A DEVICE THAT COULD AUTOMATE THE RAILROAD COUPLER, WHICH AUTOMATED THE VARIOUS COUPLES OF TRAINS AND CARS TOGETHER. A LESSON HE LEARNED AS HE LOST A LEG FROM A PREVIOUSLY COUPLED AUTOMATED TRAIN WAS THAT IT COULD KILL MANY RAILROAD WORKERS' LIVES & LIMBS.

Born into slavery (1845, Woodstock, Alabama), Beard was reconditioned at a local foundry after the Civil War. After working as a cook for five years before changing careers and opening a flour mill in Hartselle, Alabama.

By 1887, Beard had already acquired 2 inventions for planes. He used that money to invest later in a flour mill and flour mill in Tuskegee, AL.

Beard filed a patent for an improvement on the rotary steam engine with claims that the device was cheaper to build than other steam engines while being more efficient.

During the time Beard invented his rotary coupler, train car coupling was a manual process. That is, men had to very dangerous and arduous work to connect and disconnect railcars. Beard's invention would facilitate a more automated, safer process, by simply holding the cars "together" against each other to prevent them from dislodging during connecting process.

July 21th stage - Champs-Elysées

An event like this has never been seen before in Paris, the Champs Elysées. But for the first time ever the route will be closed to traffic for the whole day. The riders will ride from Versailles they will cross the Valley of Champs, the Bois de Boulogne, the Avenue des Champs Elysées and the Place de la Concorde. It is a mixture of heritage and culture that needs to be seen.

You waste a lot of time at work

Just because you're at work doesn't mean you're getting work done.

You're drowning in email, stuck in dead-end meetings, and constantly interrupted.

When do you have time to do any real work? Don't worry. You're not alone.

HELLO

Welcome to the design and illustration studio
of Jen Adrion and Omar Noory.

We are a digital agency specializing in harmonious interactive design.

DESIGN

We create usable, responsive web design that is as nice to look at as it is to use. Our reverent design department quietly considers your functional requirements, then marries

CONTENT

Content is king, but our projects operate as an oligarchic theocracy. Reverend Danger collaborates with you, and we guide each other to content solutions that are innovative.

DEVELOP

Our development team is, for once, personable and social. Have a beer with them, and they'll ask you to name your favorite languages (they know every single one), then tell you

EVOLUTION OF THE BOTTLE

More than 100 years ago, a French brand owner and his son, Pierre, gave birth to a blend of whiskies. The new blend was named after their home town.

The newly designed bottle is a copy of one of the models described during research.

CHAMBER OF SECRETS

3. RESPONSIVE WEBSITES

Three years have passed since Ethan Marcotte coined the term “Responsive Web Design”. Once a revolutionary fresh idea, has in the year 2013 been transformed into a commodity. Responsive Web Design (RWD) is not a mere trend anymore, it’s the reality of design expression.

I’d even go so far as to say that responsive web design will soon be as obvious as the separation of css and html for semantic reasons. It’s not a question of whether to use it or not. It’s a question of whether you can implement it properly.

We live in the post pc era. Mobile devices (and soon wearable computers) are growing in importance and today we have no other choice than to accept the fact that our websites need to provide an exceptional experience for different screen resolutions. In 2013 25% of the Internet traffic will come from Smartphones and Tablets. More than 25% of TVs sold in 2012 were Smart TVs with Internet connectivity. Only responsive web design will let you easily serve all these devices and their owners

IN 2008, WE HAD A PRETTY SIMPLE GOAL: TO SERVE GREAT COFFEE. WELL, WE HAVEN'T BEEN MUCH REASON TO CHANGE THAT.

We're happy to finally open the doors to our Edmond brick and mortar, on Friday June 19th and now we're open. We really will focus on coffee, of course, along with other great options from craft beer and wine to well-plated salads that complement each dish perfectly.

It's been a long time coming, but here's one of our favorite coffee bars to your area. Either way, you get great service, great location, and happy memories.

TO SERVE THE MOST FRESH COFFEE FROM GREAT COFFEE ROASTERS IS THE MOST MEMORABLE EXPERIENCE.

I Won It Once

Jun 10th, 2013 — 7 Responses

After watching [Brené Brown's TED talk](#) about competing and winning early on in his freestyle skating career:

I think I was on tour when I was reading one of the Feynman biographies. It was the red one or the blue one. And he made this statement that was so profound to me. It was that the Nobel Prize was the tombstone on all great work, and it resonated because I had won 35 out of 36 contests that I'd entered over 11 years, and it made me bananas. In fact, winning isn't the word. I won it once. The rest of the time, you're just defending, and you get into this, like, turtle posture, you know? Where you're not doing. It warped the joy of what I loved to do because I was no longer doing it to create and have fun, and when it died out from under me, that was one of the most liberating things because I could create.

The creative process is most exhausting when you have to do a million

After watching [Brené Brown's TED talk](#) about competing and winning early on in his freestyle skating career:

I think I was on tour when I was reading one of the Feynman biographies. It was the red one or the blue one. And he made this statement that was so profound to me. It was that the Nobel Prize was the tombstone on all great work, and it resonated because I had won 35 out of 36 contests that I'd entered over 11 years, and it made me bananas. In fact, winning isn't the word. I won it once. The rest of the time, you're just defending, and you get into this, like, turtle posture, you know? Where you're not doing. It warped the joy of what I loved to do because I was no longer doing it to create and have fun, and when it died out from under me, that was one of the most liberating things because I could create.

The creative process is most exhausting when you have to do a million different things (and experiments) (and responses) (and external) before you begin to learn new grants. It's like the first time you go to a new place, you have to check before you can return to that destination again. You have to learn the local language to absorb the idea of conduct if you want to visit a new city.

Responsive Images with Apropos

When Square's front-end engineering team was building our Japanese website, we were faced with the challenge of how to support a wide range of devices. We knew responsive design was the right way to do this, but we wanted to support a compatibility strategy "mobile first". However, we weren't sure how we would serve every vector image in the project, images used by our Japanese partners.

LukeW! Responsive Web Design Performance

The last few months, our engineers about responsive web design have gotten serious about performance. That is, how can responsive sites load quickly, even in constrained mobile networks, but not the pleasure of犠牲用户体验 (sacrificing user experience) for the sake of speed? Here's a compilation of what I've learned...

Responsive Ad Formats start to arrive via Google [beta]

The new responsive ad unit allows you to design a wide range of formats with your responsive design two pages. You can now directly specify the size of the ad that will be served, selecting it to fit the way your site renders a particular device.

At the time, we were having some major issues with how TweetMag was performing. We were using Readability's API, and decided to reach out and ask them if they might have any solutions to our performance problems.

They responded immediately. Within 24 hours we had solved a major technical problem that had plagued us for weeks.

That initial email led to them giving us some amazing support on our app, which led to a meeting at SXSW 2011, which led to more conversations, which leads us to this story.

MINI

Our quest to continually reinvent what it's like to shop for & own a car.

[VIEW CASE STUDY](#)

We're an interactive marketing and experience design agency.
Here's what we make:

The screenshot shows a landing page for a Saucony campaign. At the top, there's a navigation bar with the beam logo, 'Our Work', 'About Us', and 'Get in Touch'. Below the navigation is a large image of a man jogging on a bridge, wearing headphones and looking at his phone. A red 'View Case Study' button is visible. The main headline reads 'Saucony RUN4GOOD' with the tagline 'Every mile lights childhood obesity'. The page has a clean, modern design with a white background and a mix of sans-serif and serif fonts.

We're an interactive marketing and experience design agency.
Here's what we make:

This screenshot shows another case study page for MINI. It features a large image of a red MINI Cooper, a red 'View Case Study' button, and a headline 'End-To-End Online Channels That Win'. Below this, there's a section titled 'Case Studies' with thumbnails for 'MINI', 'Wrigley Mobile', and 'athenahealth'. The bottom half of the page is a 'Featured Projects' section with cards for 'Pabst Blue Ribbon', 'Living Proof How Full Works', and 'Saucony Kinvara 3'. Each project card includes a small image and a brief description.

Scottish Agency Brightfire Switches Model to Inbound and Doubles Revenue

Brightfire was founded in 2003 in Glasgow, Scotland as a web development agency. In 2010, their success began to stagnate, as the competitive landscape grew crowded with other agencies who had entered this low-barrier industry. The directors at Brightfire recognized that it was time to move away from traditional website building and into inbound marketing with HubSpot as their opportunity for re-invention in the field.

✓ Doubled revenue in the first year
✓ Increased revenue 70% in the second year
✓ Continued growth through a recurring revenue model

4. FLAT DESIGN

To say that “**Flat design is extremely popular**” is to say nothing. Flat design took over the design world. Microsoft (since 2010), Google and Apple (iOS7) adapted flat design to some extent and thousands of designers followed. 2013 was the year of flat design and 2014 won’t be any different. Flat design will stay with us for a long time.

Some designers, though, tend to see it as the **beginning of the revolution**:

“I believe that the flat design trend is a symptom of growing maturity in the field of web and interface design. This maturity applies to our designers – who are getting better at making interfaces that encourage interactivity and engagement – as well as to our users.” /Marci Ikeler, Designer & Founder of Little Arrows

“In essence, the flat era of design has narrowed the constraints but surprisingly expanded our approach towards design. Skeuomorphic design was not a trend, it was necessary for technology to be adopted. Now that it is, flat design is another necessary step that will facilitate the exploration of new design techniques that will take the industry to new heights” /Damian Madray

If they are right – there’s hardly a way back. **The flat revolution will unify**

the digital world under a single rule. Whatever is different aesthetically will be judged as an oddity. While all the big brands are switching to flat, this view might be truer than ever.

Take a look at the 15 best flat design examples and be inspired!

The Island specializes in providing design services geared towards companies and individuals who are in search of a professional, flexible, and experienced team of designers. Our attention to detail cannot be surpassed, and we work tirelessly to reflect this in every project we take on. If you have a specific need or request, we are more than happy to accommodate it. If you have a logo, website, application or print material, you can count on us to provide a sleek perfect representation of your specific needs.

Founded in the city of Brno, Czech Republic, and today, our studio, our clients, and the brands, we design for, work with and learn, as they continue producing top-notch assets for clients ranging from mid-size companies, such as Adtek to up-and coming startups, all of our clients share a high level of satisfaction with our work.

Hoping worked well seems at Turing Studios and Mode Art, we know what it takes to complete a project full circle. From sketches to renderings to execution, we involve you in each step ensuring we meet your expectations throughout the entire process.

If you are interested in working with us, send us over to hear from you. Let us know a little about yourself, your company, and what your needs are and we'll get back to you right away.

Interested in working together? We are too!

Truly Vibrant Telephony.

Here to challenge the status quo when it comes to telephony, Coloured Lines is a new breed of full service VoIP carrier offering affordable voice and data communication over a business grade, private network.

Search this site

Web design by [YOKÉ]

WHO WE ARE

A new kind of VoIP carrier doing things differently.

Coloured Lines offers a different kind of VoIP service to what's available on the market. We offer a range of features and services that have been designed to make life easier for our customers. Our mission is to provide a reliable, secure and cost effective solution for businesses of all sizes.

We are a privately owned company, and a division of Yoke and its previous website for SMEs. We offer a range of services including VoIP, SIP Trunks, Data and more.

TESTIMONIALS

Hear what our customers are saying

"Coloured Lines SIP trunks have proven to be reliable and cost effective service for our business and our clients. Their support has always been excellent and their staff are extremely knowledgeable and helpful. I would recommend them to anyone who is looking for a reliable, fast and responsive service and staff."

Karl Lester
Project Manager Operations
REACTIVETECH

"We had previously been attempting the move from ISDN to VoIP, however in both instances the results were far from satisfactory. Then along came Coloured Lines. They ensured the whole process was painless and we could now enjoy the great cost savings and the benefits, saving us loads every month as a result."

Umesh Campbell
Managing Director
INTERTECH

"We used the guys from Coloured Lines which have made the process smooth sailing. We now have phone or messaging offices around the world and have a number of business line softswitching, fixed and mobile numbers. We have also implemented a range of mobile devices and softphones. We can now communicate with our clients in over 100 countries via 1000+ member agents and soft clients in the USA. Moving our PBX to the cloud allowed us to focus on growing ConnectSoft and our focus is now on how our new telephone system will meet with the growing needs of our clients. It's been a lot of money."

Introducing BYOD: Bring Your Own Device for SMBs

BYOD:
Bring Your Own Device

Trends, Risks, and Benefits

Small and medium-sized businesses (SMBs) are experiencing a surge in BYOD (Bring Your Own Device) as a result of the continued growth of mobile technology. Many SMBs are embracing the trend, allowing their employees to communicate from any device, and from anywhere. For SMBs, adopting BYOD can bring many benefits, but it also poses significant challenges. This infographic looks at the trends driving adoption of BYOD by SMBs, and the potential risks and benefits SMBs must consider.

Powered by digium

digium.com/infographic

As the worldwide market for mobile phones in 2012 reached 1.8 billion units, there are approximately 1.5 billion mobile devices in use. In fact, mobile devices are becoming the primary way of connecting to the Internet.

About Features Accounts Security Download

About

Finance should be fun – whether it's on your mobile phone, the bus, the tube, or the beach. Numbrs brings all of your accounts together in one easy-to-use app.

The screenshot shows a smartphone displaying the Numbrs app interface. The screen is titled "Future Timeline". It lists several transactions with their amounts and dates: "+4 000,- 10.07.2013", "-50,- 10.07.2013", "+250,- 10.07.2013", and "-15,- 10.07.2013". Below the transactions, there is a note: "You have selected going on. Numbrs analyzes your spending behavior and existing transactions to calculate your future income and expenses." The top of the screen has a navigation bar with links for "About", "Features", "Accounts", "Security", "Download", and a globe icon.

The screenshot shows a section of the Numbrs website titled "Access to all your accounts". It features a heading "Access to all your accounts" and a subtext "Numbrs provides worldwide access to all your accounts. Available in just three steps." Below this, there are logos for "Sparkasse", "HSBC", and "Volkswagen Bank Austria", with a total value of "EUR 3,500,-" displayed. To the right, there is a dark-themed image of a safe with a lock, accompanied by the text "As safe as a bank" and "Protecting your data is our highest priority. You are the only person who can unlock and view your data. All our technology operates with biometric standards." The top of the screen has a navigation bar with links for "About", "Features", "Accounts", "Security", "Download", and a globe icon.

The screenshot shows a section of the Numbrs website titled "Access to all your accounts". It features a heading "As safe as a bank" and a subtext "Protecting your data is our highest priority. You are the only person who can unlock and view your data. All our technology operates with biometric standards." Below this, there is a large image of a safe with a lock, with the text "SSL encrypted" at the bottom. The top of the screen has a navigation bar with links for "About", "Features", "Accounts", "Security", "Download", and a globe icon.

The screenshot shows a section of the Numbrs website titled "Allgemeine Nutzungsbedingungen" (General Terms and Conditions). It features a heading "der Numbrs AG für den Online-Dienst numbrs." Below this, there is a link "Dokument bearbeiten [edit]" and a section titled "1. Registrierung, Vertragschluss". The text in this section discusses the registration process and the conclusion of the contract. At the bottom, there is a section titled "2. Leistungen, Erreichbarkeit" which includes a link "Leistungen bearbeiten [edit]". The top of the screen has a navigation bar with links for "About", "Features", "Accounts", "Security", "Download", and a globe icon.

5. PARALLAX SCROLLING

Parallax scrolling in web design (previously popular in cartoons and video games) has been around for quite some time. Do you remember RGA's website "Nike Better World"? It set the design world on fire. Suddenly everyone wanted to play with moving backgrounds and in 2013 the trend is simply obvious. Countless websites mesmerize users with a background illusion.

The parallax effect is the difference in the apparent position of an object viewed along different lines of sight. It leads to a certain illusion of 3D and creates an engaging environment for presenting content.

If it's not overused it's a powerful weapon in the hands of a crafty designer. You can experience that by watching the 15 websites that we've chosen.

TAKE THE TOUR

HEART RATE

Do you know how often your heart beats? Rate is the time you wait to feel one pulse. Heart rate is the number of times your heart beats per minute, in seconds.

RESPIRATORY RATE

Can you imagine that your fitness is measured by your breathing? You can now measure your respiratory rate in one second. The faster you breathe, the more oxygen you take in.

[LEARN](#)

BLOOD OXYGEN LEVEL

A blood oxygen level of about 98% is considered to be optimum performance. It's important to have a higher blood oxygen saturation because it's the oxygen carried by the red blood cells at your heart that fuel your body.

HEART RATE VARIABILITY

Our heart does not beat at a constant rate. Heart rate variability is the measure of how much your heart rate fluctuates. This gives you indications of your level of stress.

clean water.

MADWELL

At Madwell, we believe that great agencies are not created overnight. We believe in a culture of learning, growth, and development. We believe in a commitment to our clients, our employees, and our community. And we believe in a future where we can all work together to make the world a better place.

/ PROCESS

1 / DISCOVER

This is the first step in our process, where we are getting to know you. Understanding your needs, the marketing goals you're trying to achieve, and the challenges you're facing. This is also the time to establish a clear definition of the primary goals, objectives, assumptions, and timelines. Following this initial phase, we'll conduct research and analysis, including the collection of numerical data and previous efforts, and build an index of relevance with the particular focus to refine our own thinking.

6. VIDEO BACKGROUND

HTML5 made it extremely easy to creatively use media on a website. The method that became particularly popular in 2013 is the video background - the trick of setting a large video as the background of a site.

A video background completely changes the visual appearance and adds a dynamic to the whole experience. While it might be inappropriate for e.g. a complex eCommerce website (as it might be distractive) it's great for sites that are focused on telling the story.

The goal of a video background is twofold: endorsement of the user engagement and creation of an unforgettable, emotional, message.

As you will certainly notice on many of our exemplary websites designers know what to do to use video background efficiently.

I assume this trend will be even stronger in 2014.

WHITEBOARD

We live, work, and play in Chattanooga, TN.

In a society that largely defines others by their location where they get jobs, our approach to living out into the country. You'll find us with the pessimists and the most kind of optimists, and we're creating an opportunity in Chattanooga, Tennessee.

Recently, Chattanooga has been spotlighted for the number of its down-to-earth community's attitude toward environmentalism and innovation. It has made the long, recorded crawl from being recognized as one of the worst cities in America to sitting the toast of influential publications: GOOD Magazine, the New York Times, Outside Magazine, and Men's Journal.

We believe in Chattanooga and we are proud to call it home.

The HISTORY
of Joe San

This is the story about a quest. One of the most beautiful stories, the perfect one, on Earth. It's the story about love. This is the story about the search for something special. This is the story about the world. How the French fashion culture creates, the story of Joe San. This is the story about the search for something special. This is the story about the search for something given in the books of the WPA. This is the story about the search for something given back to a family. Finally, this is the story of craftsmanship. This is the story of Joe San.

This is the story of Joe San. This is the story of Joe San. The story of Joe San is the story of France. Joe San is a brand, a project, a dream of character, taste and style. Joe San is a brand of exclusive clothing, refined cuts and exceptional materials.

"Joe" in Japanese is a politice word of respect, a title of honor. Joe San is a brand of respect, a brand of quality. Joe San is a brand of craftsmanship. The fabrics of all Joe San's clothes come from

RESPONDING TO THE GENETIC THREAT

FIND OUT HOW

PRESERVING HUMANITY THROUGH TECHNOLOGY

As this world's leading AI spectrum security company, we have the resources and expertise to uncover new ways to protect the country from genetic threat. We are poised to bring decades of experience, alongside AI technology and advanced genetic systems, to the foundation for the world's most advanced artificial intelligence. Our mission is to develop a team of experts committed to advancing our founders' cause through eight additional generations of upgrades and refinements.

As we continue five decades of advancement, we also bid farewell to the original Trask Industries team. After years of efforts to full-time handing over the Max X - our first complete synthesis of the Sentinel line. These highly advanced units will be deployed to the most dangerous hotspots and deepest最 dangerous depths, preventing us from being taken down by the human race.

MUTANT MARK / 10TH GENERATION

TRASK INDUSTRIES: YOUR FUTURE

With the latest technological breakthroughs, we can ensure that our society and our world are safe and secure. Our commitment to innovation and safety has always been at the forefront of our work.

ENSURING PEACE IN TROUBLING TIMES

The world is facing many challenges, but with our advanced technology and expertise, we can help to ensure peace and stability in even the most difficult times.

MUTANTS

Our Mutant Mark is a powerful AI unit designed to protect the world from genetic threats. It is the latest addition to our family of advanced AI units.

TRASK

ABOUT

INNOVATION

MEDIA

ABOUT

RESPONDING TO THE GENETIC THREAT

Our goal at Trask Industries is to be the one-stop source of innovation through research, invention and groundbreaking science. Our employees hold themselves to the highest standards, because they know that the solutions we provide represent a moral imperative to ensure the future of humanity.

THE X-ORION IN HUMANOID

Each iteration refines our engineers' understanding that gene mutations can occur frequently in all humans. However, these mutations are often negligible and can manifest in subtle and degenerative forms of disease and disability.

LOW-AFFECT MUTATIONS

Low-Affect Mutations occur more frequently and impose less risk than other types of mutations. They are often negligible and can manifest in subtle and degenerative forms of disease and disability.

HIGH-AFFECT MUTATIONS

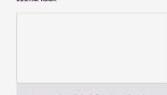

WELCOME TO TRASK INDUSTRIES

Founded by Bolivar Trask in 1957, Trask Industries has been at the forefront of genetic engineering breakthroughs through technology and precision. Our team is dedicated to the revolutionary development of DNA Generation Program, which is the most advanced system available. The lead in genetic research is reflected in the technology with our Mutant Detection Device and Sentinel program. We are committed to ensuring that the world is safe and secure. The threat to humanity is real, and we are here to respond to it.

BOLIVAR TRASK

"The mutant threat is the defining issue of our time. We can choose to do the impossible or let humanity perish. I believe that the choice is clear. Let's stand together and fight for a better future."

Learn how to protect yourself from genetic threats. Visit our website for more information and to learn how to stay safe. Stay informed and stay safe.

Want to play around with the assets found on this page?

[Download Logo Package](#)
Includes PNG, EPS, AI and both full logos and mojo hex.

What is a toolkit?

A toolkit provides a collection of assets and deliverables with a focus on branding and look and feel. These deliverables are consistency across product and brand communication by creating a cohesive visual language. A toolkit typically includes assets such as a logo and font, brand guidelines, colors, typography, textures, and other graphics criteria, but it can also include marketing collateral, such as brochures and presentations, marketing emails, and other assets that define a brand's visual identity.

Why is less branding more?

Borders are not a limit.

We work in international business contexts and this is why we live with the needs of a variety of clients having very different mindsets and cultural records.

Our UX method allows us to understand the different point of view in order to design user experiences that go well beyond people's expectations.

7. NON-STANDARD NAVIGATION

Navigation is among the most important pieces of every single website. No content would be reachable without properly designed navigation that answers the questions “where am I?” and “where can I go from here?”.

We got used to either a top, left or right menu. They’re patterns used since the beginning of the web. Something changed in 2013 though. Designers started to play with the concept and come up with really creative solutions. Some of them are more usable (bottom navigation), some less (usage of a keyboard in navigating through a website), but all in all this is an interesting and popular trend that’s changing the way the Internet looks.

Take a look at the 15 best examples of non-standard navigation elements.

WE MAKE THIS WEBSITE WITH PASSION. MAKE THIS MOVIE TOGETHER!

We're a small team of people who have a passion for movies. We have been working on the movie for over 1 year at a fast and set time looking for the funds, we're now looking for your help to make this movie.

End of the campaign:
00 Days 00 Hours 00 Minutes 00 Seconds

Time funding
€ 0 / 100000

I AM A CO-PRODUCER

UPCOMING

THE MOVIE

Vespillo is an ambitious feature film that will tell the story of a man who has lost his wife, family, son, and job. He has given up on life completely, and is now living deep underground in a set, surrounded by deceased characters.

To bring him back to complete acknowledgeability, a real audience has been working with us for an entire year.

I would like to talk about a production which isn't necessarily well known and doesn't have many references to the original poster...

Synopsis
Once a husband, Vespillo, is a recluse, he wants to keep away from society because he has lost everything, and he has the ability to communicate with the deceased. Through them, he can still feel the love and the connection to his wife.

One day he needs a wheelchair. When this situation will obviously change his life.

HANDY MASTER CRAFTSMAN BREWER TIPS

DETERGENTS AND DISINFECTANTS ARE HARMFUL AND DETERIORATE ELEMENTS

CLEANING

Wash your hands after handling hops, yeast or any other elements. Wash your hands before and after handling any brewing equipment.

TEMPERATURE

Temperature must be measured accurately to ensure for a 10% batch yield and avoid the risk of over-fermentation.

TEMPERATURE CONTROL

Any amount of cooling water will cause an increase in density. Adjust these amounts until you reach the correct temperature.

MEASURING SUGAR

For each fermenter, measure the amount of sugar with which to use (see Cascade Brewing Company's website for more information).

FLAVOR ADJUSTMENT

If you are not satisfied with the flavor of your beer, add flavoring agents.

INTEGRATION

For a smoother, more integrated flavor, add the following to a cooled wort:

• Yeast: 10g per 10L of cooled wort.

• Yeast nutrient: 1g per 10L of cooled wort.

Outer Ear Welcome to the Interactive Ear! Hover over the circles to learn how each part of the ear works. This diagram is of the outer ear.

Middle Ear The middle ear converts sound from the air into vibrations that can be sent through fluid to the cochlea, in the inner ear.

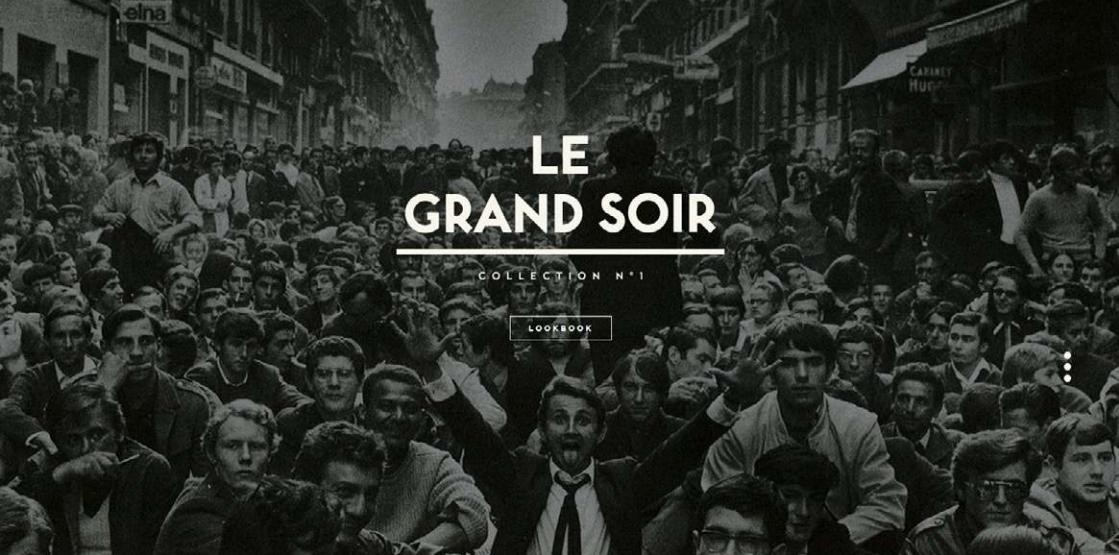

Inner Ear In the inner ear, vibrations are turned into waves in fluid, moving tiny hair cells to create sound signals for your brain to detect.

The Cochlea This is a cross-section of the cochlea, the part of your inner ear that controls hearing.

8. FIXED NAVIGATION

Setting a position fixed for the navigation bar isn't something new. It's doable since CSS2 introduced absolute, relative and fixed positions for html elements. However, in 2013 fixing the navigation has been rediscovered in a twofold way:

- responsive websites often use fixed navigation bars to improve the navigation capabilities on a small screen;
- fixed navigation bars with additional transitions add a dynamic feeling to the website.

The progress of technology (larger screens and bigger resolutions) has justified the fixed position of the navigation and honestly we're hoping it will become a standard in 2014.

Enjoy 15 great websites that are leading the fixed revolution!

Infographic: Stealing Images Online VS Using Images Fairly

By John Yang, 27 Aug 2013

COMMENT SHARE 181

Click to view full infographic

Besides being illegal, did you know that it is more troublesome to steal images online, as compared to using them ethically?

To allow you how much easier (and wholesome) it is to use online images fairly, Ingridbed—in collaboration with Ingridbed and its Marketplace—have created an infographic.

According to the infographic, image thieves have to perform the following time-consuming steps to use stolen

What Does Design Mean To You?

Interactive Prototypes Made Easy: Design Collaboration

Published on August 30, 2013 in User Experience

1. On Creative Leadership
"Forcing inspiration is impossible". Jesse Friedman shares his almost 10 years experience in keeping a team creatively inspired. Prepare for some science!

The User Experience
Three Handpicked
08/28/2013

1. Seeing the Elephant: Defragmenting User Research
‘Some blind men walk into a bar... later, they happen upon an elephant. One feels the trunk and proclaims it a snake. Another feels a leg, and claims it’s a tree. And so on. Hence it is the Big Picture.’ A perfect analogy for a situation where a company spends millions on customer research while customers still dislike their products. Lisa Ronenfeld saw it on her own even as

1. How did you get started in the User Experience Design field? And what would be your advice to newcomers to the field?

I sneaked into the field before they put up all the signs.

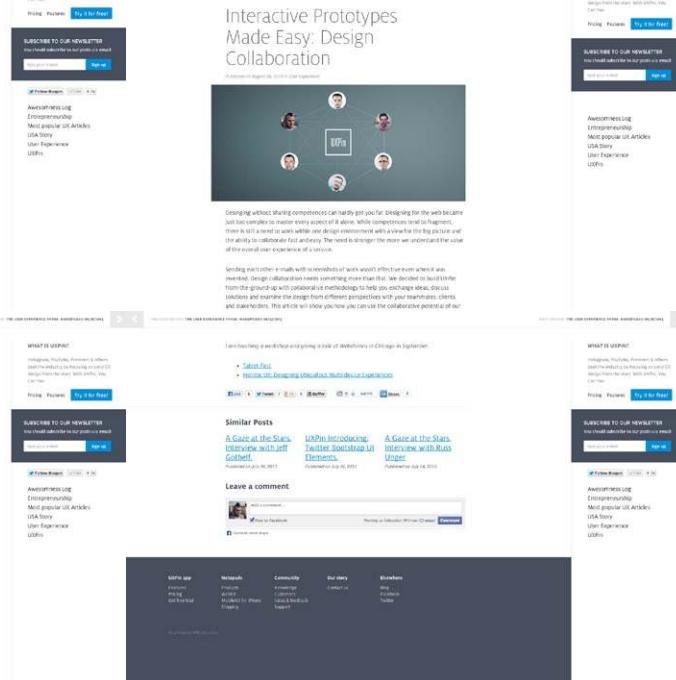

I came from publishing, having worked as an editor, author, agent, packager, and publisher. When the web came along, I at first viewed it simply as a great new form of publishing. Because I worked on tech books, I had already formed some opinions about how to improve user interfaces, but until I used the web I lacked any formal process or techniques or awareness for becoming involved in the making of software.

The web democratized all that and gave me the chance to teach myself what we now call: Information architecture and to build interfaces out of HTML (and later CSS) and scripting languages, etc..

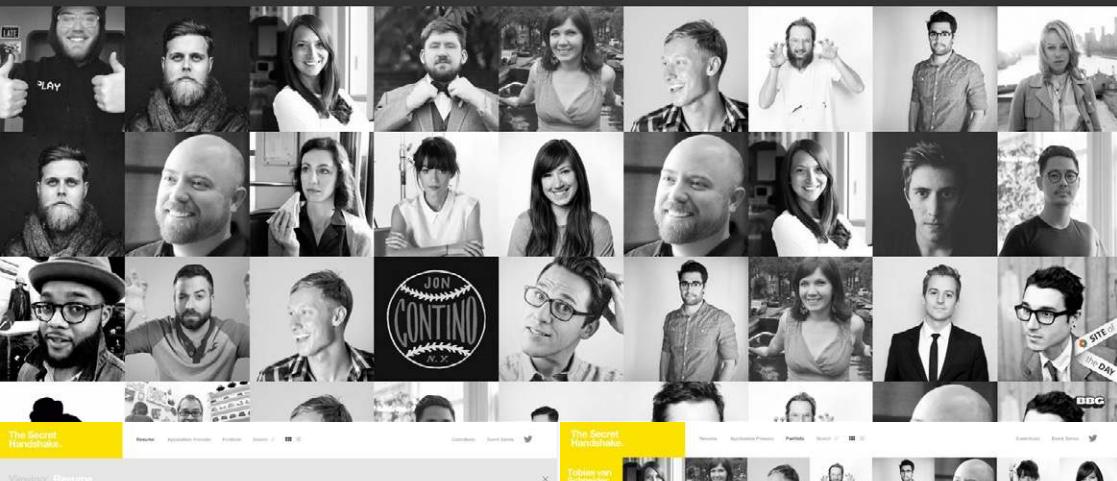

After making my own websites, including a collaborative website called Entospace that ran from 1994 to 1998, I took on a series of roles in Internet consulting companies, including founder, content manager, content strategist, information architect, and director of strategy. I ended up at Yahoo as an interaction designer, curating the Yahoo design pattern library, then joined the behavioral effort at AOL as a director of consumer experience and later director of product at AOL Today. I'm a product director at a mobile productivity startup, CloudOrbit.

Along the way, the emerging UX communities of practice, in particular for me the US Institute and the EA Summit, helped me find my way. My advice to newcomers is to find local organisations and first ways of attending regional, national, and international UX conferences, to find like-minded people, and to connect with others across the globe on LinkedIn or the Field.

2. What's the one thing that always works in User Experience Design?

The Secret Handshake is an online resource for student designers and young creatives (18-25) looking for insider insight, honest answers and solid solutions to help you go pro.

The Secret Handshake

Viewing: Resume

The Secret Handshake

Resume Portfolio Dos

Build your portfolio with the work you want to do in the future instead of just using it as a backlog of projects. Your portfolio is not what you did, but what you're going to do next. Same with calling out what exactly you did on a specific project will make sure that there are no wrong expectations from either side. Also: Self-Initiated projects show a lot more who you are & what you want to do.

Ignore everything you learned in school about creating your Resume and you know the "Don'ts"

Self-Initiated projects show a lot more who you are & what you want to do.

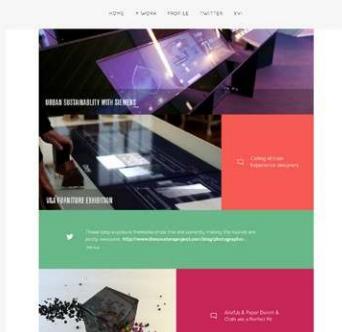

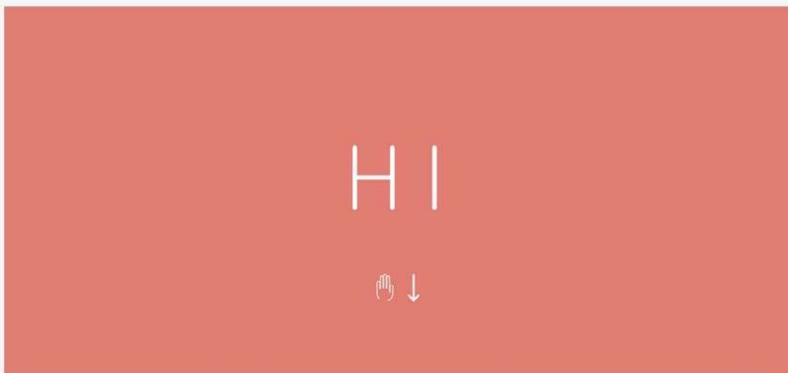

Become interesting, not average.

Portfolio Don'ts

Don't ever show any work that you have to make an excuse for. Go ahead and show the concept that didn't get approved if you believe in it.

HOME + WORK PROFILE TWITTER XVI

My name is Derek Boateng a London based freelance interactive design professional with over 10 years experience. I have a passion for creating beautiful, intuitive and highly craftful digital experiences. I take a considered approach with emerging technologies, have wide ranging experience in design from web and mobile design through to large scale interactive installations.

My portfolio is a mix of work created independently, and as part of a studio.

If you are interested in working together I'm available for freelance, contract or direct client projects, contact details can be found below.

THE STORY

Driving through the back roads of the West Texas countryside, two teenagers, 16-year-old Dale and 14-year-old Gordy, are on a road trip to nowhere. They're on a quest to find the perfect place to build a fort, and they've chosen a remote, overgrown clearing in the middle of the woods. But the last thing they expected was that the fort would become the family home - whether it's the boy's dream or not.

ALTERNANCE

MISSION

Responsable du chef de projets vous intervenez sur les missions suivantes :

- Analyse de la concurrence
- Postement par la conception des dispositifs proposés à nos clients, sous prémissse de leur intérêt et de leur pertinence
- Prendre une place active dans la conception ergonomique et fonctionnelle et de participation aux délais fixés par le directeur de l'agence

Vous participez également au pilotage de plusieurs projets clients et vos missions sont :

- Assurer le chef de projets ses missions et directions de l'équipe pour la conception (développeurs, graphistes, conceveurs...)
- Veiller à la qualité des projets tout au long de la chaîne de fabrication
- Sur le plan financier : assurer le suivi et la gestion des coûts et gérer les productions
- Sur le plan de la gestion : organiser et suivre le planning, assurer la gestion des délais et assurer la gestion des risques

POURQUOI FAIRE PARTIE DE L'AGENCE ?

- Vous apprenez l'ensemble du cycle d'un projet web

UX Designer enthousiaste Alt

ALTERNANCE

MISSION

Sous la direction des deux experts de conception, et en collaboration avec les membres de l'équipe projet, vous intervenez sur l'élaboration des documents et l'inement tout au long du processus de conception des projets logiciels internes et externes et de leur intégration dans l'ensemble des projets.

L'usage de l'interface d'usage sera essentiel à concevoir les différents projets et participer aux cycles d'itérations. Vous participez aux réunions de conception et aux séances de travail de conception, afin de garantir le bon niveau d'assurance de l'agence.

POURQUOI FAIRE PARTIE DE L'AGENCE ?

- Vous êtes à l'aise avec les outils de conception (Sketch, Axure...)
- Vous avez une bonne connaissance des processus de développement d'interface utilisant les technologies HTML5/Mobile/React, JavaScript, CSS3, LESS, SASS, etc.

- Vous avez déjà travaillé sur des projets d'ingénierie et faire preuve de méthodologie dans votre approche de la conception.

**9 18****9-18 LIVING QUARTERS** IS A SIGNIFICANT RUSSIAN PROJECT. IT IS THE FIRST BLOCK OF FLATS WITH A WELL-THOUGHT-OUT SUPPORTING INFRASTRUCTURE FOR CHILDREN AS WELL AS SMART FLATS, AKA TRANSFORMERS.

We had the task of proposing a name as unique as the living quarters themselves. The name 9-18 perfectly shows the connection of the project to its inhabitants and allows them to keep track of what their children are doing from 9 till 18 thanks to the block infrastructure.

This naming solution also speaks to the architecture of the complex, as the buildings have either 9 or 18 floors.

This summer is all about living in the fast lane of life. Explore our latest sunglasses and optics, and make sure you don't go unnoticed this season.

[VIEW FEATURED STORY](#)

The collage includes several screenshots from the Carrera website:

- A top-level navigation bar with links to HOME, SUNGLASSES, OPTICALS, FEATURED STORIES, and SPORT.
- A large promotional image for the "CARRERA 5003" sunglasses, featuring a woman in a car and a speedometer graphic.
- A "VIEW FEATURED STORY" button.
- A product page for "CARRERA 5003" sunglasses, showing multiple color options and a "OUR JOURNEY" section.
- A product page for "CARRERA 6002" sunglasses.
- A "VIEW ALL SUNGLASSES" button.
- A "CARRERA FOLDABLE HELMET" product page, featuring a large image of the helmet.

9. METRO GRID

The Metro UI name has been officially buried because of a possible trademark dispute. Microsoft offered “Windows 8-style UI” instead but the design world somehow refused to use it (sounds like product placement, doesn’t it?).

It didn’t kill the trend though. Together with the pinterest-like grids, metro grid has become extremely popular in 2013 and certainly will remain popular in 2014. Designers started to love websites and web applications full of nicely crafted boxes. Appealing, simple aesthetics almost dominated the Internet.

Choosing 15 nice implementations of the “Metro Grid” wasn’t an easy task, but we managed to do it. Enjoy!

Do you guys understand what a beta release is? Of course it will be buggy, and you should expect it to crash. It's why you should never install on anything but a test device.

The big question is whether any of the bugs, crashes and kickbacks will occur once iOS7 has general availability.

THIS IS WHERE YOU WILL FIND THE BEST WEATHER THIS WEEKEND

Now let's talk about booking flights

When you have the world at your fingertips and only a weekend to spare, finding where to travel can often be quite overwhelming. Finding a good deal at hand when you're sifting through hundreds of offers, hoping for that perfect weekend break, without the cost.

We believe there's a smarter way.

Follow Escape Flight updates on [Twitter](#) [Facebook](#) [Instagram](#) [YouTube](#) [LinkedIn](#) [Pinterest](#) [Tumblr](#) [Foursquare](#) [Flickr](#) [Wunderground.com](#)

If you don't know where you want to go, great! You're exactly the type of person we're looking for.

Just kick back, tell us what you're interested in and where you want to be based, we'll take care of the rest.

A better search

It's about providing a smarter search that understands what you are looking for, what you need to see, what you like to do, and what you care about, so a number of carefully curated results.

If you know the destination you're interested in, we'll find it all, we'll cut out options you're unlikely to choose, and our flight criteria will even allow you to pull easier your personal umbrella (at least for the weekend).

The image is a collage of screenshots from the official website of the Nowy Teatr (New Theatre) in Warsaw. It includes:

- A top banner showing a large black and white portrait of a man's face.
- A news section with a large image of a couple in a dramatic pose, followed by articles about a new documentary movie and a comedy festival.
- An article titled "THE AFRICAN TALES' TRIUMPH AT THE DIVINE COMEDY FESTIVAL".
- A section for "NOWY TEATR RETURNS TO FESTIVAL".
- A section for "PRIX FRANCE MUSIQUE FOR PAWEŁ MYKĘTYN".
- A section for "RESERVE YOUR TICKETS ONLINE AND PRINT THEM AT HOME".
- A section for "THE AFRICAN TALES BY SHAKESPEARE - NOMINATED FOR THE 'FELIKS WARSZAWSKI' AWARD".
- A grid of portraits of actors: Andrzej Chyra, Małgorzata Cieślka, Małgorzata Dalkowska, Sławomira Cieślakowa, Piotr Polak, Małgorzata Ostaszewska, Jacek Poniedziałyuk, Zbigniew Małanowicz, Magdalena Popławska, and Maciej Stuhr.
- A "Tickets" section with details for a performance by Andrzej Chyra.

10. MIX-AND-MATCH TYPOGRAPHY

2013 popularized a typography style that we previously knew rather from fancy t-shirts than websites - mixing and matching several styles of fonts. The complex art of choosing the right font is stretched to the extreme in this trend.

Neck-breaking typography aerobatics will certainly be with us in the near future. It's too powerful a brand-shaping tool to disappear.

Watch the 15 best examples of Mix-and-Match Typography and be amazed!

BEHOLD! THE DESIGN FRONTIER

A DESIGN COMPANY THE LIKES OF WHICH YOU'VE NEVER SEEN

Witness this never before seen revelation of beauty and wonder! Enlivened by mirth, provoking surprise and marvelous feats, the Forefathers design group fashions the world's most electrifying brands, websites and illustrations.

WHAT CUSTOMERS ARE SAYING...

GOOD NIGHT ENTERTAINMENT

"We have worked with a lot of designers in the music industry, through our experience at various companies, and the creativity and professionalism you have shown at Forefathers is so entirely different from them. I have been impressed ever since your project has changed how we do things. You have handled every task with such enthusiasm and passion. We are so grateful for your hard work and dedication. This is the best team that this great working team is. Thank you so much for your support and help. We are so grateful for your hard work and dedication to us."

TIMMY TOMPKINS' → AWESOME ← FANTASY COMIC BOOK SUPERHERO **ADVENTURE!**

AN INTERACTIVE CHILDREN'S BOOK FOR THE IPAD

WHAT'S ALL THIS THEN?

WELL, THIS LITTLE STORY IS ABOUT TIMMY TOMPKINS. HE LOVES COMIC BOOKS, ESPECIALLY ONES WITH SUPERHEROES. ONE DAY HE WOULD LOVE TO BE A SUPERHERO, LIKE HIS DAD, WHO READ HIS FAVORITE BOOKS. THEN HE COULD SHOW THOSE BULLIES AT SCHOOL NOT TO MESS WITH HIM ONCE AND FOR ALL.

WHO DID ALL THIS?

THIS APP WAS A COLLABORATIVE EFFORT BETWEEN AUSTRALIAN ILLUSTRATOR & DESIGNER THOMAS VITZ FITZPATRICK AND PAPERBAG PUBLISHING. IF YOU'D LIKE TO LEARN MORE ABOUT THESE GUYS, CHECK OUT THEIR RESPECTIVE SITES BELOW!

FITZ
STORYPANDA

WHY NOT BUY IT?

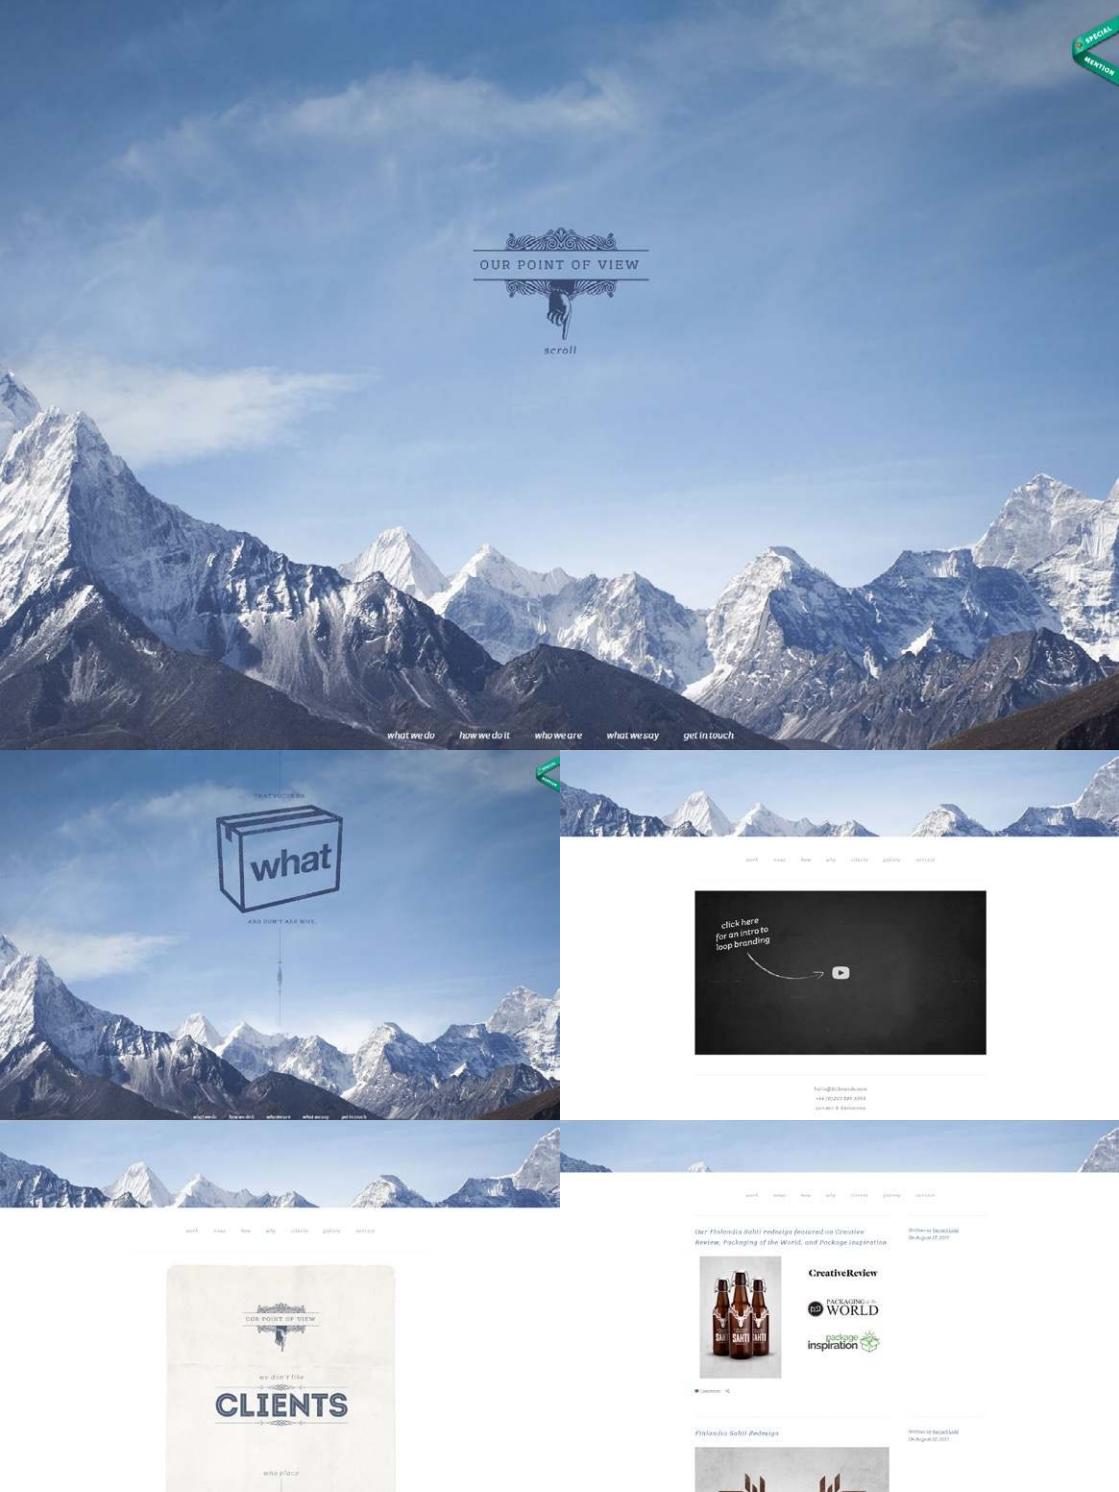

NOW THAT YOU KNOW A LITTLE BIT ABOUT THIS APP, WHY NOT BUY IT AND READ IT TO YOUR KIDS? OR YOURSELF? THAT'S KIND OF THE POINT OF IT. YOU CAN PURCHASE IT THROUGH THE APP STORE BY CLICKING ON THAT RIDICULOUSLY LARGE BUTTON BELOW. ENJOY!

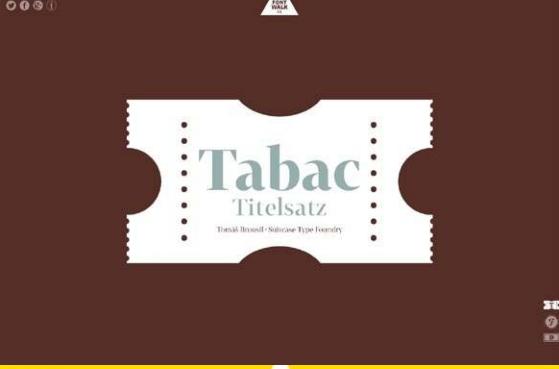

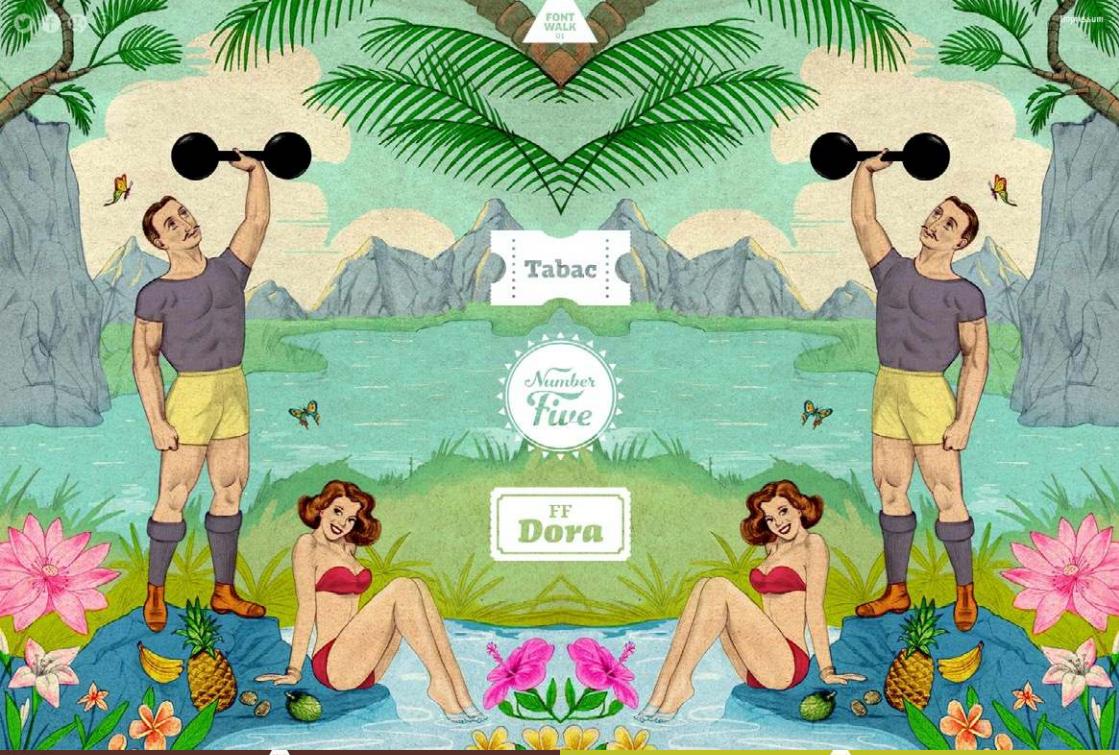

BUY NOW

COME ON, SHARE IT!

Schlafbrillen für Politiker

Ausgeht es um Politik, dann schließen sie sich Politikern aus: Ihre Brillen sind aus der Pappwurst. Ziehst du sie über die Nase, strecken die Brillenstrapsen sich und prellen gegen die Vorderseite des Kopfes. Der Effekt des Brillenabstreifens ist so stark, dass es sich nicht mehr aufsetzen lässt.

Schachfiguren geflossen

Wer kann eigentlich spielen das? Ein Congresstaumann oder belgische Großmutter? Nein, es ist ein Schachspiel, bei dem die Schachfiguren plötzlich am Ufer eines Flusses stehen und daher ohne einen herrenlosen Zügel aus dem Spiel geworfen werden. Wer kann eine Flucht auf eigene Faust, das heißt ohne die Zügel des Regimes?

UPCOMING ART WALK Wednesday SEPT 4, 2013

THEME: Pet Walk

Art Walk Map

Produced by Downtown Jacksonville, Inc., and held each month from 5 p.m. to 9 p.m.— rain or shine— Jacksonville's Downtown ArtWalk is a free monthly event that features more than 50 galleries, restaurants, cultural organizations, bars and businesses, plus dozens of artists in Horning's Plaza, street performers and more.

Want to get involved? Please contact Art Walk manager Lisa Carter at ArtWalk@jacksonville.com or call 904.359.0202, ext. 250.

DOWNLOAD THE ART WALK MAP

Don't Miss Venues

Every Art Walk is a learning, but September's Art Walk is about the cooler, fury of our furry friends. There are pet contests, feature shows and art pieces for animal and family visitors to learn more about our health, happiness and pets.

HIGHLIGHTS

The Live Music @ Performance Venue

Orlando's Pet Parade

Bird Park Open After 5 p.m.

The Total Street

Headquarters

Get to know how to adopt a shelter animal or help a local animal organization. Jacksonville Animal Care & Control is the oldest animal welfare organization in the state. It's been around since 1923.

Southlight Gallery

Enjoy a performance from Southlight Company as they travel across the city to bring you the best in contemporary dance. Their most recent production is "The Last Days of Pompeii," a production of the 2013 documentary of

FEATURED VENUES

Florida Theatre

Celebrate the 10th anniversary of the Florida Theatre's 10th Anniversary. Enjoy a performance from the Florida Theatre's resident company, Florida Stage. The show is "The King and I."

The Darling

Festival's Heart On Circular, a 10th anniversary celebration of the 10th year of the festival. The show is "The King and I."

3D Studios Greeng, Inc.

Enter your pet in the best rock competition in town! The Rockin' Pet Contest will begin at 6 p.m.

ONCE UPON A TIME

It is a golden age for the story. The re-invented Once Upon a Time food truck is here to tell you all about it. They have a variety of items to bring with them, but no one can compare to their once upon a time food truck. They are going to start a food truck, and the world is about to be changed.

They may have seen this truck, because it's a food truck. All background, ranging from knowledge to transportation, ranging from the past to the future. They are here to tell you how they traveled. They are the food truck, they are even more excited. It's a great time to be alive, because they are the ones who are full of surprises and a lot of fun.

They are dedicated to serving high quality food and a unique experience. They are here to bring a smile to your face, and make your day better. They are the ones who are here to make your day better. More. A little bit naughty, a little bit nice, and has been there for a lot of time.

WE'VE RELOCATED

Cast Iron's been a gift in store for years now based in our shop. And the good news... About five months ago we packed up all our art and walked out on Boulder, Colorado, placing our business here for the last few years. We've been looking for a place to call home for a while now, and we finally found it in the heart of the midwest. We're looking forward to new adventures on all fronts. Another cool fact? Our "green" offices in the U.S., and we're excited to be a part of this growing community. It's just in the beginning stages, so we're looking forward to what's to come. If you have any questions or comments, please feel free to email us or give us a call. We'd love to hear from you.

WE DESIGN
EXPERIENCES
AND MAKE THEM **WILDLY** EXTRAORDINARY!

wildblue9

WILD BLUE IS AN ENGINE.

Here technology and strategic creativity merge, delivering immersive and ultimately memorable consumer **experiences**.

Guiding it all is an **ECLECTIC MIX** of talents not usually found under the same roof:

Writers, art directors, animators **work alongside** industrial designers, packaging/prototype specialists, and craftspeople.

Together, they form a **THINKING UNIT** steeped in the culture of business and fully cognizant of the way those businesses move ahead.

GOOD TIMES

TIMES SQUARE
One year after the 9/11 attacks, Times Square was given the thumbs up by Wild Blue to become a focal point for the recovery of the New York City. And ways to regenerate the area were found: to bring back the park state, add new stores, restaurants, and offices; to renovate buildings, and create something entirely new.

Starting with handbilled off cuts from a local flooring company, we set out to create a new look for the area. We added 1000 new trees, changed 1000 light fixtures, and added 1000 little chairs. In addition, we created a new park lighting, which was used to create a through connection between the two sides of the product itself.

DO YOU LIKE SOLVING CHALLENGES, WORKING, AND COMPLETING ASSIGNMENTS?

PREFER COLLABORATION TO SOLITUDE?

MAYBE SOME PING-PONG JUST TO GET THE CREATIVE JUICES FLOWING?

THEN WILD BLUE MIGHT BE RIGHT FOR YOU

FERMEZ DOUCEMENT LES YEUX ET LASSEZ LA PIZZA VOUS DÉPLIER. LES PAPILLÉS NE DEDS PLUS RIEN. NOUS SAVONS.

11. CLARITY AND SIMPLICITY

Clarity and Simplicity are always in fashion. In 2013 however this became a major trend. Connected to the “content centric” approach and the flat design, the clarity and simplicity of an interface become a complete, powerful thing.

It's design at its best. Thoughtful, efficient and...simple.

Enjoy!

Hi there!

My name is Haraldur Thorleifsson. But you can call me Halli.
I am a Creative Director and designer of things that appear on screens.

I can name-drop if you want. I can tell you that I've worked for companies like Google, The Economist, Motorola, Asics, TiVo, Microsoft, YouTube and Square. And if you twist my arm I can also tell you about some awards I've won; Webbys, FWA, Awwwards - the usual suspects. But enough about me, how have you been?

Want more?

If you've gone through all the case studies (you absolutely should read them first; they are really quite nice) and still want to see more of my work, you can check out the shots below. They are from a design community called Dribbble. If you click on any of the images you will be taken there. Don't be alarmed, it's a nice place.

Paula Ryan
Web Design + Digital Marketing

Made, Right Here.

100% Freelance

From a 1960's house in the back-streets of Wellington, New Zealand I work with a range of clients, agencies & collaborators from around the globe. With over 12 years industry experience, I have held both web design, web development and graphic design positions at agencies in New Zealand & London.

All of the work offered is **straightforward, professional and delivered on time**. I offer a fixed rate and no hidden fees.

Services the studio offers include:

- Graphic design
- Web design
- UI/UX design
- Branding
- Illustration
- Photography
- Video production
- Motion graphics

Graphic design services include:

- Logo design
- Business cards
- Stationery
- Brochures
- Leaflets
- Posters
- Banners
- Signs
- Mugs
- T-Shirts
- Apparel

WINDOWS OF NEW YORK

The Windows of New York project is a weekly illustrated atlas for architecture that has immensely grown in its five years plus in this town. A source of knowledge about of windows through the eyes of art, this is a collection of illustrations that somehow have made an ordinary topic into the most interesting part of the city.

This project is just as it's name sounds, not just windows, but also doors, to know more check my blog.

PHILOSOPHY

Designed Auro for 4 years now, I have worked on many projects, from mobile to desktop, from responsive to static. In terms of design, I like to work with a clean and minimalist approach. I like to keep things simple, but also to have a certain level of complexity in my designs. I like to work on multiple projects at once, to have a variety of experiences. I like to work on multiple projects at once, to have a variety of experiences.

12. COOKIES WARNINGS

The European Union gave designers a huge headache in 2013. Cookie warnings are now obligatory for all European websites. That's an unwanted trend that will certainly be very popular in the next couple of years.

Nothing we can do about it apart from...getting used to it.

true.

Everything you want from a full service digital marketing agency and more: devilishly clever strategy, breathtaking creative, expert insight - and great people to work with. **Believe it, it's True.**

Conclusion

2013 is the year of smart, aesthetic and simple design. 2014 will be no different. Responsive web design will be even more powerful. Flat Design will be even more popular (since the arrival of iOS7). The clarity and simplicity of content-centric websites will be all over the place.

Who knows, maybe this is the golden age of the Internet. The design of 2013 is mature, focused on its purpose and certainly rewarding for the eyes of users.

The only thing that can destroy 2014 for all of us is the growing popularity of transitional interfaces. While CSS transitions are great and in the hands of talented designers can add much desired interactivity to the UI, it's easy to overdose them.

Everything in the design is meant to serve its general purpose. Don't get caught in the trap of unnecessary movement in the interface and the design will be fine.

2014 - can't wait to see what it'll bring to the world of web design.

Marcin Treder
